QUARTER 2, 2021

Volume 2, Issue 2

Keta Municipal Hospital Support

On 8 June 2021, the crew of Duamenefa Foundation of Fafaa 100.3 FM, Dzodze along with several pastors traveled to the Keta Municipal Hospital to bring donations of needed items to the facility.

Dr. David Kotei Nutakor – California, USA, in memory of his late Father, Leonard Besa Gbede Nutakor and his late Mother, Sabina Atsemuyo Evortepe believes in the work of the Keta Municipal Hospital and has donated each quarter. Dr. Nutakor has a heart for the children's ward and has made them a priority for help.

To summarize the projects which have been completed, the first three phases include:

Phases 1-3 The purchase, installation and dish hookup of a 65" flat screen television. This was completed in March, 2020.

Painting the whole Children's Ward, inside and out with bright colors to give an overall better environment for the children while admitted. This was completed in July 2020 giving the ward a cheery look.

Curtains were sewn to cover all 53 windows in the ward; completed by the first week of November, 2020.

Duamenefa Foundation of Fafaa FM under the leadership of its Executive President, Emmanuel Ketaman Evortepe, discussed the needs in the male ward and made the decision to support this all-important area. The benevolence started with the purchase of four-32" televisions with satellite hookup, so the men who had to stay and recover, could keep up with the happenings in the news. These were presented to the hospital in November, 2020 along with the commissioning of the work done in the children's ward.

Quarter 1, 2021, the needs were

directed to the parents of the children who are admitted to the hospital. There was no place for the parents to lay their heads while they tended overnight to their children, so a donation of 20 high-density student mattresses was made for this purpose.

For the male ward, the request from the hospital was listed Covid-related items. The purchase of electric hand-dryers, touchless sanitizer dispensers and bottles of sanitizer along with hundreds of hand towels were made.

All the items were handed over to the Medical Supervisor, Dr. Antoinette Ekuban; the Administrator, Mr. Aforbu and the good people of the Keta Hospital in the name of the Father, the Son and the Holy Ghost.

Supporting the local hospitals, whether they are government-run or private institutions, is vital to the intervention of lives. With the strong and committed support of Dr. David Kotei Nutakor and the Duamenefa Foundation of Fafaa 100.3 FM, Keta Municipal Hospital will be forever cared for.

thing very different than piles of blocks and empty land.

We are about setting captives free!

Donated Items for Keta Municipal Hospital

Vocational School Building Project Update

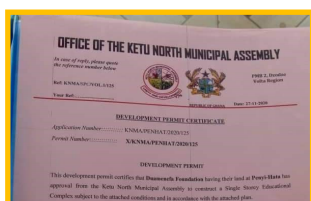

It is so very special when we can watch as God provides for His perfect will.

Last quarter, the land was cleared and blocks were being molded.

In just one quarter, all the drawings, elevations, and

transference of land was made. The paperwork was processed at the government offices and our building permit was approved. Now for our groundbreaking ceremony and the digging will commence.

We set a target of 10,000 blocks and have reached the halfway point. Two large truckloads of gravel will be delivered immediately as we are ready for foundations to begin. By the end of the third quarter, we will see some-

Building permit attained! Ready for a ground breaking to begin digging foundations

Stacks of blocks numbering over 5,000

Men pose with their mold for blocks.

"Promoting Peaceful Coexistence"

The Duamenefa Foundation is a Non-Governmental Organization, an (NGO) with a membership of over 15,875 volunteers who are committed to promoting peace and reconciliation in their various communities through (a) Interventions to redeem the spiritually attacked victims (b) Donations to Single Parents (c) Training of Orphans and Trokosi's (d) Promoting the youth through the development of sports, etc. (e) Financially helping youth in their tertiary education through the Costheta Educational Support Fund (f) Quarterly Hospital Outreach helping hospitals to renovate, purchase vital supplies and equipment for better patient care.

About nine years ago, within Dalikorpe, Dzodze in the Ketu North Municipality of the Volta Region, a very strange growth, began to appear in between the face and neck area of a beautiful young 23-year-old woman named Esinam Gawu.

According to Esinam, one day a family friend came to inform her that Mr. Sorkpa Kangaru confessed publicly that he is responsible for her strange sickness. The Gawu family quickly sent Agbota Gawu to inquire from Mr. Sorkpa Kangaru if the said allegation was true. Mr. Sorkpa confirmed to the family delegation that he truly manipulated the Juju powers on his cocoyam plantation with the intention to harm anybody who attempted to pluck the cocoyam leaves.

Intervention to Save the Life of Esinam!

According to Mr. Sorkpa Kangaru, Esinam plucked the leaves, hence she is suffering the consequences of the juju powers he contracted for. He requested that the family of Esinam should produce certain items to pacify the gods and to reverse the juju powers.

The family claimed they provided the items to Mr. Sorkpa and he allegedly performed the rituals on two different occasions, yet the rituals could not yield the desired results.

According to Esinam, the family supported her to seek expert medical attention at the Ridge Hospital, Accra, where the first operation of three was carried out to remove the growth, but the growth resurfaced rapidly after all the operations; hence, the family thought it wise to petition the Duamenefa Foundation for investigation and intervention.

The Duamenefa crew conducted undercover investigations into the matter to ascertain the veracity of the allegations.

During interrogations on-air on Fafaa 100.3 FM, Mr. Sorkpa admitted again to the aforementioned allegations.

He was educated by the retired NCCE Director of Ketu, Mr. Francis Gota, on the provisions of the 1992 Constitution in the regards to this matter and was advised to reverse the juju powers under the supervision of his traditional ruler, Togbi Dali III or be handed over to the police for causing harm. Mr. Sorkpa agreed on air, but unfortunately Sorkpa turned around to inform Togbi Dali III that he could not trace the fetish priest who initiated him with the demonic power, hence it would be difficult for him to heal the woman.

Mr. Sorkpa has since run away from the community due to the police's request. Meanwhile, the growth keeps increasing to a dangerous stage and her family claimed they are financially handicapped to undertake another medical venture.

The health condition of Esinam is rapidly deteriorating and now she can hardly breathe and finds it very difficult to eat food or drink water. She is living between life and death.

The Duamenefa Foundation of Fafaa FM is calling on all relevant stakeholders to help save the life of Madam Esinam Gawu by donating toward another surgery to relieve her. The intervention to locate Mr. Kangaru Sorkpa is now a public responsibility.

Esinam one year ago and now

Membership Drive—16,000 and Counting!

What does it mean to be a member of the Duamenefa Foundation?

Duamenefa literally means "Let us coexist in peace together." Our purpose is stated at the top of this page.

In order to effectively intervene through investigations of the many, many petitions that come in to us regarding spiritual matters, we must have a "spiritual neighborhood watch" so to speak, in place. Duamenefa Foundation is about peace, but if someone is bringing chaos, and working against others, causing divisions, destruction and even death, he or she is not about peaceful coexistence

and an intervention must take place. Jesus came to bring peace on earth and goodwill toward men, but many are too consumed with their own lusts and desires that they never think about anything but abusing and using and manipulating evil powers to get what they want even if it kills people.

God called, anointed and mandated Mr. Emmanuel Ketaman Evortepe to intervene in the plight of the vulnerable citizens and be a voice for the voiceless. He has taken up the mantle and has been very successful by the power of the Holy Spirit and God's grace.

Members agree to report wrong doings that are impacting their neighborhoods, shrines, churches, families and more. They are part of the stakeholders Ketaman depends on to help resolve these antagonistic conflicts and restore peace. With over 16,000 volunteers in the 550 community catchment area of Fafaa FM 100.3 radio and beyond, a great network of citizens, over 402 conflicts have come to good resolution thus far.

That equates to 402 lives saved.
